

SUMMARY AUDIT REPORT

PF06A_KZR 01.10.2025

Page 1/2

Name of company:	PJSC Ivano-Frankivskcement		
Summary audit report for certificate no.:	BVC/KZR/267/25		
Company registration adress:	Ukraine, Tysmenytskyi district, Yamnytsia village, Nazariy Yaremchuk street, 2		
Company operational adress:	Ukraine, Tysmenytskyi district, Yamnytsia village, Nazariy Yaremchuk street, 2		
Auditors team:	Lead auditor:	Auditor/GHG Verifier/Expert:	
	Kateryna Postolenko	Elzbieta Jaroslawska-Deja	
Date of audit:	14.10.2025		
Certification system:	KZR INiG		
Certification pathway:	Biomass fuels		
Scope of the certification:	IPET - Installation producing energy, heat or cooling for technology purposes		
Reference document:	KZR INiG Certification system for the sustainable production of biofuels, biomass fuels and bioliquids, version 4 dated 05.05.2025.		
Type of audit:	Certification		
KZR INiG registration number:	2724/7999/DD/25		
Longitude and latitude coordinates including farms and plantations certified as single entities:	Not applicable		
Assurance level (reasonable or limited):	Reasonable		

SUMMARY AUDIT REPORT

PF06A_KZR 01.10.2025

Page 2/2

Type of biomass covered by certification:

Certified location:	Ukraine, Tysmenytskyi district, Yamnytsia village, Nazariy Yaremchuk street, 2		
Certification pathway:	Biomass fuels		
Scope of certification:	IPET - Installation producing energy, heat or cooling for technology purposes		
Feedstock* (material name and code)	Product (product name and code)	GHG option**	
RDF from industrial waste	Heat/Steam [URWH001]	2	
RDF from mixed municipal waste	Heat/Steam [URWH001]	Not applicable	

^{*}Certified feedstock means raw material intended for the process e.g. rapeseed, wheat, rapeseed oil, sunflower oil, used cooking oil, biomass fraction of industrial waste, woody chips.
** GHG option

^{2 -} actual value
3 - NUTS 2 value or NUTS2-equivalent value (NUTS2-equivalent" value is a GHG value for cultivation in a region of a country
1 - NUTS 2 value or NUTS2-equivalent value (NUTS2-equivalent" value is a GHG value for cultivation in a region of a country
1 - NUTS 2 value or NUTS2-equivalent value (NUTS2-equivalent" value is a GHG value for cultivation in a region of a country
2 - NUTS 2 value or NUTS2-equivalent value (NUTS2-equivalent" value is a GHG value for cultivation in a region of a country
3 - NUTS 2 value or NUTS2-equivalent value (NUTS2-equivalent" value is a GHG value for cultivation in a region of a country
4 - NUTS 2 value or NUTS2-equivalent value (NUTS2-equivalent" value is a GHG value for cultivation in a region of a country
5 - NUTS 2 value or NUTS2-equivalent value (NUTS2-equivalent" value is a GHG value for cultivation in a region of a country
6 - NUTS 2 value or NUTS2-equivalent value (NUTS2-equivalent" value is a GHG value for cultivation in a region of a country cultivation, i.e. for first gathering points, farms/plantations.

Non-conformities					
Category of non- conformities	Description of the non- conformities	Corrective actions agreed upon	Number of days to close non-conformities		
Critical/Major/Minor
